

MARKING AND CODING
MODEL SERIES CM760 HIGH SPEED PRINTER

MARKING AND CODING WITH THE CM760 SERIES

The CM760 is the high print speed version of the CM700 series range and has been designed to meet the very exacting standards and flexibility demanded from an industrial printer in today's fast moving production environments. Reliability of operation in the harshest environments. Quality of printing monitored and maintained to deliver perfect code every print. Simplicity of setup, service and operation through a highly visible 10" Touch screen. Cost Saving features of single part service and solvent consumption saving system. Powerful and flexible print data options through network or local scanners. The CM760 has it all covered.

Key features CM760

- Modular ink system
- IP55 industrial structure
- Print speeds up to 7 mtrs per sec.
- Quick, clean, fluids addition
- Maintenance friendly modular print head
- A simple high resolution operated user interface
- Single filter module

Specifications

Screen size:	Color 10 inch TFT LCD Touchscreen
Cartridge volume:	750 ml
Total Ink volume:	1.600 ml
Nozzle:	50 µm
Print lines:	4 lines x 7 high / 5 lines x 5 high
