

Ampag Kombi

STRAPPING MACHINE & CASE SEALER

CYKLOP[®]
GLOBAL PACKAGING SOLUTIONS

STRAPPING
WRAPPING
CODING
TAPING

The Ampag Kombi is a combination of our case sealer and strapping machine. This machine is perfect to integrate in a packaging line, which permanently improves efficiency. The packages are sealed at the top and bottom with tape, after which they are automatically strapped.

Advantages

- Strapping and taping in a single operation and machine
- Bottom and top are closed at the same time, or only the top
- Conveyor belts for safe guidance of the box
- Number and position of straps are both adjustable
- Safe and systematic packaging
- Efficient and ergonomic working method

Program possibilities

1. Closing boxes without strapping
2. Closing boxes and strapping once (position adjustable)
3. Closing boxes with double strapping
4. Closing boxes with multiple strappings (positions and number adjustable)
